EMPLOYMENT

The Zebra

SE II, Senior FE Engineer, Staff FE Engineer | 2018 - 2025

Spec out and deliver production ready UI features for robust car insurance comparison web apps serving millions of users. Lead Frontend Guild. Mentor junior developers. Spearhead accessibility and performance initiatives. Drive direction of the company's FE tech stack.

Spacecraft Inc.

Product Developer | 2015 - 2017

Develop the UI of the web app. Work within the established HTML, CSS, and JS conventions of a large codebase, using git for version control. Push fixes for bugs. Identify, spec out, and add new features to rendered sites, then create the UI that enables customers to access those features.

Volusion

Front End Developer | 2013 - 2015

Develop website templates and client websites using HTML, CSS, and JavaScript. Work within Volusion software. Respond to client tickets and resolve issues. Update Github repos. Assist in training of new employees.
